IT Pro Challenges

by Learn on Demand Systems

As a way to address the training gap between Instructor-Led Training and Self-Paced courses, Learn on Demand Systems has created short-duration, scenario-based, hands-on activities called IT Pro Challenges.

What are they?

- Challenges are available in three levels: Guided, Advanced and Expert.
- Multi-vendor cloud focused topics - starting with Azure.
- 340+ challenges available within the next several months.
- Challenges will be available for purchase individually, at the topic level (series), or all access (library).

How can they help grow your business?

- Students want and need additional hands-on practice opportunities.
- Enables you to expand upon the topics discussed in your courses.
- Allows you to differentiate yourself from your competitors.
- Create blended learning by combining challenges with other activities.
- Provides ongoing engagement opportunities.

	ACCESS	LIST PRICE	PARTNER PRICE (50% DISCOUNT)
Single Challenge	30 days	$4.95	$2.48
10 Challenges Series	90 days	$29.95	$14.98
All-Access	365 days	$49.95	$24.98

Each challenge may only be taken once. No retakes or saves available.

GUIDED CHALLENGE
Similar to a traditional lab, but replaces the step-by-step instructions with goals and objectives along with detailed hints, which allow students to check their work as they progress. Duration ~ 30 minutes.

ADVANCED CHALLENGE
Based on a series of requirements built around an overall objective. It lets students figure out if they know how to perform administrative tasks, and helps them learn new ones by utilizing resource information. Each requirement must be completed successfully to move to the next. Duration ~ 45 minutes.

EXPERT CHALLENGE
Students will complete a large configuration task to showcase their mastery of a topic, which could span multiple products, technologies and platforms. They will not receive task guidance. An automated score is given once complete. Duration ~ 60 minutes.
